## *A Message from the Secretary of Law Enforcement*

One of the ways the Alabama Law Enforcement Agency (ALEA) strives to improve public safety in Alabama is providing a statistical analysis of criminal justice information each year. The Uniform Crime Reporting (UCR) Program staff within our Information Bureau works with 350 local law enforcement agencies throughout the state to compile and provide an analysis of the data in *Crime in Alabama*.

*Crime in Alabama*, now in its 39<sup>th</sup> year, details criminal activity that occurred in Alabama during 2014 for specific geographical areas. Using methodology prescribed by Federal Bureau of Investigation's (FBI) Program, the publication includes data sets for Part I crimes – Homicide, Rape, Robbery, Assault, Burglary, Larceny, Motor Vehicle Theft and Arson. Additionally, the publication presents an overview of Part II crimes. It also encompasses arrest, clearance, and law enforcement employee data.

The publication should not be used to evaluate or compare one local law enforcement agency with another but as a resource to measure a local law enforcement agency's response to crime.

We hope our efforts to provide quality services to the criminal justice community are helpful. We look forward to our continued publication of *Crime in Alabama* and to future enhancements designed to improve public safety through the delivery of criminal justice statistical information.

Sincerely,

A handwritten signature in blue ink that reads "S. Collier".

Secretary of Law Enforcement Spencer Collier

## *Dedication*

---

This report is dedicated to Alabama's law enforcement officers who protect and defend the citizens of this state. In particular, we would like to honor the memory of Alabama's peace officers who lost their lives in the line of duty in 2014.

## *Preface*

---

The 2014 Crime in Alabama report is intended to inform law enforcement officials and private citizens of criminal and law enforcement activity in Alabama. Since the UCR offense and arrest data are the basis of this report, it must be noted that other factors affecting crime are not measured by UCR, such as age, sex, and race of the population, economic conditions of the area, transient population, culture, education, climate, attitudes of the victims toward crime and police, and crime reporting practices of the citizens. Therefore, it is difficult to draw conclusions or make valid comparisons between various jurisdictions by using only the crime and arrest data in this book. The data in this book are used for analyzing crime problems inherent in the criminal justice system and as a foundation for planning and budgeting. Geographic areas covered in this report include the State of Alabama, county and city strata.

We would like to extend our appreciation to law enforcement agencies – sheriff's departments, municipal police departments, and campus police – for their cooperation in the UCR program.

---

### **PLEASE NOTE**

In 2013, the FBI UCR Program initiated collection of data under a new definition for forcible rape. The term “forcible” was removed, and the definition changed to “penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.” Rape statistics found in this report are not an actual representation of comparative data from 2014 to 2012.

## *Crime and Arrest Data*

---

Valid crime data can provide a solid foundation for statistical analyses, management-oriented analyses and crime breakdowns. These analyses can then aid local police departments in laying out patrol districts, assigning patrol units, and designating community education programs.

Data used in this report are provided by the Information Bureau of the Alabama Law Enforcement Agency (ALEA). ALEA's data center houses the official state repository for reported arrests and offenses, and the Information Bureau has the responsibility of collecting and disseminating crime data. In 2014, approximately 350 agencies reported known offenses to Alabama's UCR; over 99% of Alabama's law enforcement agencies submitted Incident Reports.

Through a mandate of Congress, Arson is counted as a Part I Offense. So as not to distort crime trends in Total and Property Crime indices, Arson totals will not be included in these sections but will be included in a separate section following property crimes.

Crime data are obtained from the Part I Index of Offenses submitted by law enforcement agencies to Alabama's UCR program. These Part I Offenses are divided into Violent Crime and Property Crimes.

Violent Crimes include Homicide, Rape\*, Robbery, and Assault. These crimes are considered violent inasmuch as they are offenses perpetrated against a person(s) with a high risk or injury or death to the victim(s). Property Crimes are comprised of Burglary, Larceny, Motor Vehicle Theft, and Arson\*. Property or Nonviolent Crimes lack the aspect of force and/or bodily harm to the victim(s).

Clearance and arrest data are also reported to Alabama's UCR. A crime is considered cleared, either by arrest or by exceptional means, when enough evidence is found to charge a suspect and take him/her into custody. It is conceivable that one arrest could clear several offenses or that several arrests could clear one offense. The clearance rate is achieved by taking the number of clearances over the number of crimes reported:

$$\text{CLEARANCE RATE} = \frac{\text{CLEARANCES}}{\text{REPORTED CRIMES}}$$

This report is a composite picture of crime and law enforcement activity in Alabama for 2014. It provides a breakdown for the State and localities participating in the UCR program. The report concentrates on the Index Crime of the FBI's Part I Offenses and offers tabular and narrative formats for comparisons, trends, rates, and percent changes.

\*Prior to 2013, Rape included only female victims. In 2013 the definition of rape was expanded by the FBI's Uniform Crime Reporting Program to include male victims and other types of sexual assault offenses. Because of this change, the number of reported rapes increased significantly from 2012.

\*A separate section on arson will be included in this report.

## Definition of Terms

---

Term	Definition
Adult	the UCR system defines adults as 18 years of age and over.
Arrest	a measure of law enforcement activity by which an individual is detained in legal custody.
Arson	willful or malicious burning with or without intent to defraud, includes attempts.
Assault	the unlawful attack by one person upon another for the purpose of inflicting severe bodily injury, including attempts. Attempted homicide is listed as an aggravated assault.
Burglary	unlawful entry of a structure to commit a felony or theft.
Central City	a city with at least 50,000 residents.
City Strata	a breakdown of cities according to population.
Clearance	a measure of law enforcement activity which shows that a crime has been solved for a crime reporting purposes either by the arrest of a suspect or by exceptional means. Exceptional means provides a solution to a crime when there is enough evidence to place a formal charge against an offender, but some element beyond law enforcement control precludes an actual arrest. It is possible for one arrest to clear more than one offense.
Clearance Rate	the clearance rate is achieved by taking the number of clearances over the number of crimes reported.
Crime Rate	a measure of criminal activity which shows the number of crimes reported per 100,000 residents.
Criminal Activity	measured by reported crimes, trends, rates.
Forcible Entry	offenses in which force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony.
Hierarchy of Offenses	whenever more than one offense is committed simultaneously, the most severe offense is reported to UCR. The exception is arson which is always reported along with the most serious offense.
Homicide	the willful killing of another as based on police investigation.
Incident Based Reporting System (IBR)	a voluntary crime reporting system developed by ALEA as an alternative to the UCR Summary Program.
Juveniles	the UCR system defines juveniles as males and females 17 years of age and younger.
Larceny	unlawful taking or stealing of property or articles without the use of force, violence or fraud, i.e., pocket picking, purse snatching, shoplifting, theft from vending machines, etc.
Law Enforcement Activity	police activity as measured by clearances and arrests.
Minimal Injury	personal injury involving abrasions, minor lacerations requiring no more than usual first-aid treatment.
Motor Vehicles	automobiles, trucks, buses, motorcycles, etc.

Motor Vehicle Theft	The unlawful taking or stealing of a motor vehicle, including attempts.
Non-Residence	any structure used for purposes other than a residence.
Part I Index Crimes	a category of UCR offenses deemed more serious and/or most frequent. The Part I Index Crimes include homicide, rape*, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson.
Part II Offenses	<p>a category of UCR offenses which include:</p> <p><b>Assaults (Simple):</b> non-aggravated assaults.</p> <p><b>Forgery and Counterfeiting</b> - making, altering, uttering, or possessing with intent to defraud, anything false which is made to appear true, includes attempts.</p> <p><b>Fraud:</b> fraudulent conversion and obtaining money or property by false pretenses.</p> <p><b>Embezzlement:</b> misappropriation or misapplication of money or property entrusted to one's care, custody, or control.</p> <p><b>Stolen Property:</b> buying, receiving, and possessing stolen property, includes attempts.</p> <p><b>Vandalism:</b> willful or malicious destruction, injury, disfigurement or defacement of property without the consent of the owner or person having custody or control.</p> <p><b>Weapons:</b> all violations of regulations or statutes controlling the carrying, using, possessing, furnishing and manufacturing of deadly weapons or silencers, includes attempts.</p> <p><b>Prostitution and Commercialized Vice:</b> sex offenses of a commercial nature.</p> <p><b>Sex Offenses (Other):</b> statutory rape, offenses against chastity, common decency, morals, etc.</p> <p><b>Narcotic Drug Laws:</b> offenses relating to narcotics, i.e., possession, sale, use, growing and manufacturing of narcotic drugs.</p> <p><b>Gambling:</b> promoting, permitting, or engaging in illegal gambling.</p> <p><b>Offenses Against the Family and Children:</b> non-support, neglect, desertion, or abuse of family and children.</p> <p><b>Driving Under the Influence:</b> driving or operating any motor vehicle or common carrier while drunk or under the influence of liquor or narcotics.</p> <p><b>Liquor Laws:</b> violations of state or local liquor laws.</p> <p><b>Drunkenness:</b> drunkenness or intoxication.</p> <p><b>Disorderly conduct:</b> breach of the peace.</p> <p><b>Vagrancy:</b> begging, loitering, etc.</p> <p><b>All other offenses:</b> all violations of state or local laws, except categories mentioned above, Part I Offenses, and traffic violations. Including, but not limited to bigamy, blackmail, bribery, contempt of court, discrimination, perjury, possession and/or sale of obscene material, quarantine violations, etc.</p>
Property Crimes	(non-violent crimes) index crimes which lack the aspect of force and/or bodily harm to the victim(s). Included in this category are burglary, larceny, motor vehicle theft, and arson.
Rape	In 2013, the FBI UCR Program initiated collection of data under a new definition for forcible rape. The term “forcible” was removed, and the

	definition changed to “penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.”
Recovery	finding stolen property. It should be noted that a recovered article does not clear a crime, although the owner is reunited with his property a crime was committed and a suspect must be taken into custody to clear the offense.
Reported Crimes	crimes reported to law enforcement officials. <i>Note: In this report, only those offenses which prove to be actual offenses are used. Those cases which have been deemed unfounded are excluded from the crime totals.</i>
Residence	any dwelling structure used for human habitation.
Robbery	stealing or taking anything from the care, custody, or control of a person, in his presence, by force or by threat of force, including attempts. Robbery is broken down into seven categories: <b>Highway:</b> robberies occurring on the streets, in alleys, outside of structures. <b>Commercial House:</b> hotels, motels, lodging houses, etc. <b>Gas or Service Stations:</b> sell gasoline and related products. <b>Convenience Stores:</b> neighborhood stores which specialize in the sale of consumable items. <b>Residence:</b> robberies occurring in a dwelling or on the premises. <b>Banking Establishments</b> - banks, savings & loan institutions, credit unions, etc. <b>Miscellaneous:</b> churches, temples, schools, union halls, government buildings, public transit systems, etc.
Serious Injury	personal injury is considered serious if there are broken bones, internal injuries, or if stitches are required.
Uniform Crime Reports	standardized reporting forms used by law enforcement officials to report criminal activity within their jurisdiction.
Uniform Crime Reporting System	official state repository of the Uniform Crime Reports and Incident Reporting forms and provides for the collection and dissemination of crime data.
Unlawful Entry	involves no force and is achieved by use of an unlocked door or window. The element of trespass is essential.
Urbanized Areas	incorporated or unincorporated places of 2,500 or more inhabitants.
Violent Crimes	index crimes which are offenses perpetrated against a person (or persons) with a high risk of injury or death to the victim. Crimes included in this category are homicide, rape, robbery, and assault.

## Violent Crime

---

Violent Crime is comprised of Homicide, Rape\*, Robbery, and Assault. These crimes are designated as Violent Crimes because they are offenses perpetrated against a person (or persons) with a high risk of injury or death to the victim.

### Violent Crime Summary 2014

- There were **19,628** Violent Crimes reported in 2014, a **3%** decrease from 2013. Violent crime makes up **12%** of the total Index offenses.
- The violent crime rate was **404.8** per 100,000 inhabitants.
- On the average, there were **54** violent crimes reported per day.
- There were **8,891** violent crimes cleared in 2014 for a **45%** clearance rate.
- In 2014, **5,657** people were arrested for Violent Crimes: **93%** were adults; **45%** were white; and, **80%** were male.
- Prior to 2013, Rape included only female victims. In 2013 the definition of rape was expanded by the FBI's Uniform Crime Reporting Program to include male victims and other types of sexual assault offenses. Because of this change, the number of reported rapes increased in 2014 compared to 2012.

## *Appendix C*

Appendix C contains Part I offense data reported by individual city police departments, county sheriff's offices, and university police departments. City data is presented first and reflects percent increase or decrease over the prior year, followed by a section with clearance data. County sheriff's departments follow the section on City data, and also reflect percent increase or decrease over prior year and clearance data.

## *City Data*

Alabama's cities will include incorporated and unincorporated areas grouped by population strata.

The tables on the following pages group cities according to population and list city names alphabetically. The percent change is the increase or decrease in reported crime over 2012. The numbers in parentheses indicate the number of months the agency reported to UCR if less than twelve months.

This report does not try to account for factors which contribute to the number and type of crime in a particular area, i.e., age, sex, race of population, transients, climate, employment, etc. Any effort to make crime comparisons between one area and another should be limited in scope and acknowledge the existence of these various factors impacting the incidence of crime.

## *Clearance Rates*

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

$$\frac{\text{CLEARANCES}}{\text{REPORTED OFFENSES}} = \text{CLEARANCE RATE}$$

It is important to note that clearance data is reported on a monthly basis to UCR and therefore it is possible for an arrest made in one month to clear a crime committed in previous months or years.

## *County Data*

Alabama is comprised of sixty-seven (67) counties, each averaging 756.8 square miles.

Incorporated and unincorporated areas not having a municipal police department are protected by the county sheriff and are included in his jurisdiction. Since UCR data deals with criminal activity in a particular geographic rather than with law enforcement agencies' activities, we do not intend, nor recommend, that this data be used to evaluate or compare one agency with another.

Due to diverse demographic characteristics, the county data will be presented in alphabetical order rather than by population strata. It will include reported crime and clearance data submitted by Alabama's 67 county sheriffs. County data does not include crime data submitted by municipal police departments contained within the county boundaries. The numbers in parentheses on the following pages denote the number of months the agency reported to UCR if it was less than twelve.

## *Clearance Rates*

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

$$\frac{\text{CLEARANCES}}{\text{REPORTED OFFENSES}} = \text{CLEARANCE RATE}$$

It is important to note that clearance data is reported on a monthly basis to UCR and therefore it is possible for an arrest made in one month to clear a crime committed in previous months or years.

## *History of UCR in Alabama*

---

In October of 1975, Act 872 passed both houses of the Alabama Legislature creating and establishing the Alabama Criminal Justice Information Center (ACJIC) which is commissioned to collect, store, retrieve, analyze, and disseminate criminal justice data. Inherent in ACJIC is a "uniform crime reporting system for the periodic collection and analysis of crimes reported to any and all criminal justice agencies within the state." (Act 872, Section 9, 1975)

With the passage of this bill, mandatory reporting was required of law enforcement agencies in Alabama. Prior to 1976, law enforcement agencies participated in the FBI's Uniform Crime Reporting Program (UCR) on a voluntary basis. Since mandatory submission, there has been a 185% increase in UCR reporting.

Alabama's UCR program functions in accordance with the FBI's standards of operation which specify a uniform data collection device and quality control procedures which provide viable crime statistics for accurate indication of crime and crime trends.

ACJIC implemented an incident based reporting system as an alternative to UCR summary reporting in 1977. This Incident Based Reporting (IBR) System also provides a self-contained internal record keeping system for the agency. IBR is a voluntary system with 99% of Alabama's agencies participating. This reporting program is more detailed providing greater potential for services, analyses, and resource studies by both the individual agency's crime analysis units and ACJIC.

In 1986, ACJIC organized a 32-person UCR Committee to review the IBR report forms. This committee was made up of law enforcement personnel from small, medium and large police departments and sheriff's departments, computerized agencies, the FBI, and the Bureau of Justice Statistics (BJS). The committee reviewed and analyzed the ten year old forms and decided that enhancements were needed. The IBR report forms were redesigned with input from Alabama's local agencies. In 2006, these forms were re-designed to conform to the FBI's Nation Incident Based Reporting System (NIBRS). The new forms became the official state forms in 2010.

In 2013, the Alabama Legislature passed Act 2013-67 which created the Alabama Law Enforcement Agency (ALEA), which represents the consolidation and realignment of 12 state law enforcement agencies/functions into one entity. ALEA is now responsible for the functions and missions of the Alabama Department of Homeland Security, Department of Public Safety, Alabama Bureau of Investigation, Fusion Center, Criminal Justice Information Center, Marine Police, Alcoholic Beverage Control Board Enforcement, Department of Revenue Enforcement, Forestry Commission Investigations, Agricultural and Industry Investigations, Public Service Commission Enforcement, and Office of Prosecution Service Computer Forensics Lab. Upon full implementation of Act 2013-67 on January 1, 2015, the UCR Program was transferred to the ALEA Information Bureau.
